

Basic Options Course

Generate income. Protect your positions. Options make it possible.

If you think that options trading is only for big risk takers, think again. Options are becoming more and more popular among investors who are looking for ways to generate income from their portfolios or even protect their holdings during economic downturns.

The Basic Options course will equip you with the knowledge you need to put option strategies into action.

In this course, you'll be empowered to:

- 1 Familiarize** yourself with options – what they are, how they work and what opportunities they present.
- 2 Master** the four basic option types that all option strategies are based on:
 - Long calls
 - Short calls
 - Long puts
 - Short puts
- 3 Generate** income with less capital at risk than investing in stocks.
- 4 Protect** your positions against market loss by using options as protection during times of volatility.
- 5 Build** a foundation for any future option courses by mastering the basics.
